

COMPANY PROFILE

ABOUT US

We are known as the MORWAL GROUP in the market, M.B. LAMINATORS is an ISO 9001:2015 certified company engaged in manufacturing of PP/HDPE Woven Fabric, Sacks since 2003.

M.B. LAMINATORS manufactures HDPE/PP Circular Woven Bags commercially known as small bags which are used domestically and globally for many diversified applications. These bags are used for packing fertilizers, chemicals, sugar, agri products, valve type bags for cement etc.

The company has gained technical expertise over the years and while meeting domestic requirements, also caters to the export requirements.

Production Capacity: We process around 500 mts PP/HDPE fabrics every month which translates to approximately 50,00,000 bags per month.

The factory is located at Survey No: 669/6-C, Somnath Road, Opp: Prince Multiplast, Village Dabhel, Daman-396210 (U.T) which is the hub for processing polymers and just 180 km away from the largest port JNPT.

The unit is equipped with the state of the art plants and the promoters family members are totally involved in the day to day operations of the business ably assisted by qualified professionals.

Manufacturing and Export of HDPE / PP Woven Fabric, Sacks, FIBC, PE Liners and Film Bags.
